INTRODUCTORY SECTION

City of
Sachse

February 10, 2020

Honorable Mayor, City Council and Residents of Sachse

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) for the City of Sachse, Texas, for the fiscal year ended September 30, 2019. The CAFR is provided to give detailed information about the financial position and activities of the City to the residents, City Council, staff, and other readers.

Management assumes full responsibility for the completeness and reliability of information contained in this report, based upon a comprehensive framework of internal controls that is established for this purpose. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

BrooksWatson & Company, PLLC has issued an Unmodified ("clean") opinion on the City of Sachse's financial statements for the year ended September 30, 2019. The independent auditors' report is located at the beginning of the financial section of the CAFR.

This letter of transmittal is designed to complement Management's Discussion and Analysis (MD&A) and should be read in conjunction with it. The City's MD&A can be found immediately following the independent auditors' report and provides a narrative introduction, overview, and analysis of the basic financial statements.

PROFILE OF THE GOVERNMENT

The City of Sachse, incorporated in 1956, is located in Dallas County and Collin County, Texas, 20 miles northeast of downtown Dallas, on State Highway 78 and currently occupies a land area of 9.8 square miles. The City's population is 24,910, according to the 2019 North Central Texas Council of Governments estimate.

The City Council is comprised of a Mayor and six council members, and is responsible for enacting ordinances, resolutions, and regulations governing the City, as well as, appointing the members of various statutory and advisory boards, the City Manager, City Attorney, City Secretary, and Municipal Judge. The City Manager is the chief administrative officer of the government and is responsible for the enforcement of laws and ordinances, the appointment and supervision of the department heads, and the performance of functions within the municipal organization.

The City of Sachse provides a full range of services including police, fire, emergency ambulance service, library, parks, recreation, sewer, engineering, streets and infrastructure, community development (planning and zoning), and general administrative services.

The financial reporting entity (the government) includes all funds of the primary government (i.e., the City of Sachse, as legally defined), as well as, all of its component units. Component units are legally separate entities for which the primary government is financially accountable. Discretely presented component units are legally separate entities and not part of the primary government's operations. The Sachse Economic Development Corporation (SEDC) and Sachse Municipal Development District are included in the financial statements as discretely presented component units.

The annual budget serves as the foundation for Sachse's financial planning and control. Annual budgets are legally adopted for the General Fund, Utility Fund, and Debt Service Fund. Each year the City Manager is required to submit to the City Council a proposed budget for the fiscal year, which runs from October 1 through September 30. The operating budget includes proposed expenditures and the means of financing them. Public hearings are conducted to obtain taxpayers' comments. Prior to October 1, the budget is legally enacted by the City Council through passage of an ordinance, setting the limit for expenditures during the fiscal year. Expenditures in the adopted budget are appropriated by department and may be amended during the year. The City Manager is authorized to adjust budgeted amounts; however, such revisions may not result in total expenditures exceeding budgeted expenditures without approval of the City Council.

Throughout the year, monthly reports are provided to the individual departments to review and compare actual versus budgeted amounts, and summary budget reports are presented to the City Council. The Finance Department also reviews operating revenues and expenditures, recommending adjustments, as needed. On a quarterly basis, the Finance Department submits more detailed financial reports to the City Council.

Formal budgetary integration is not employed for the President George Bush Turnpike (PGBT) Tax Increment Financing Zone Fund (TIF) special revenue fund, Proprietary Fund, Capital Projects Fund, Sachse Economic Development Corporation or Sachse Municipal Development District (MDD). However, the City does adopt an annual budget for those funds for managerial control.

LOCAL ECONOMY

The City of Sachse continues to enjoy a stable economic environment, and local indicators point to continued stability as part of the Dallas/Fort Worth Metroplex area. The close proximity to major transportation networks in the North Dallas regional area enhances residential and commercial development in the City of Sachse. State Highway 78 connects Sachse to the President George Bush Turnpike, the North/South Central Expressway and the North/South Dallas Toll Road. The City is in close proximity to the Dallas Area Rapid Transportation System (DART) which includes both train and bus stations. The total transportation network gives current and future residents easy access to major industrial, commercial, and business developments in North Dallas. While Sachse is well-suited for residential development, it is anticipated that commercial development in the City will continue to increase with the eastern expansion of the George Bush Turnpike (Highway 190) to IH 30, which was completed in December 2011. In planning for this expansion, the City of Sachse put in place two Tax Increment Financing Zones (TIFs). The TIF Zones contain approximately 540 acres for future commercial development.

Property Values – Assessed property values increased $131,068,543 (6%) from the preceding year with $42,938,930 in new property and a $88,129,613 increase in the value of existing property. During the last five years, assessed taxable property values have increased 77% (from $1,300,626,676 in 2014 to $2,297,215,084 in 2019) and property taxes have accounted for 61% of the General Fund revenue. With a well-educated populace and an average household income of $130,317, Sachse enjoys an exceptionally high property tax collection rate.

Long-Term Strategic Planning – Long-term vision and strategic planning have been the catalyst for the City's transformation and shaping Sachse into a friendly, vibrant community offering a safe and enjoyable quality of life to all who call Sachse home. The City's annual budget process involves incorporating the goals and strategies identified by the City Council. Individual departments develop their goals and objectives in terms of these all-encompassing organizational goals. Priorities during the 2018-2019 fiscal year were:

- Transportation – Improve mobility through the City
- Infrastructure – Systematically invest in public infrastructure
- Facilities – Analyze and plan for future facility needs beyond current capacity
- Fiscally Sound – Negotiate strongly on all agreements

- Economic Development – Provide economic investment that increases employment opportunity, the tax base, and provides desired goods and services for residents and contributes to the community character and identify
- Public Safety and Security – Enhance neighborhood livability and safety
- Planning – Proactively work to keep various plans reviewed and updated
- Open Government – Increase public awareness using multiple communication sources
- Arts, Culture and Recreation –Enhance and communicate Sachse's activities to the community

Strategic Financial Plan – An appropriate financial plan for the City of Sachse requires many elements working in concert with one another. Additional demands for "essential" City services such as police, fire, sewer, drainage, and street improvements are anticipated. The Finance Department's management role will be to maintain and enhance financial plan elements and ensure the continued financial stability for the City of Sachse.

Financial Resource Planning – Strategic planning begins with determining the City's fiscal capacity based upon long-term financial forecasts of recurring available revenues. Financial forecasts, coupled with financial trend analysis techniques and careful reserve analysis, will preserve the fiscal well-being of Sachse. Strategic planning is a critical element, not only to meet long-term financial stability goals, but to determine City Council objectives that will require special financial planning to achieve success.

Capital Improvement Planning – The City of Sachse's Capital Improvement Program is a multi-year financial plan for the acquisition, expansion, or rehabilitation of infrastructure, capital assets, or productive capacity of City services. The City's operating and capital project budgets are closely linked.

Revenues for the capital budget come from bond sales, development fees, intergovernmental revenues, and current operating revenues. The Capital Improvement Program, unlike the operating budget, is a five-year plan that is reviewed and projects are reprioritized, as needed. Project budgets are used as a guide for projects, debt, and other related budget planning. Plans for future years are subject to change.

Debt Management – All debt issuances are for the purpose of financing capital infrastructure or long-lived costly assets. Each debt issuance is evaluated against multiple policies addressing: debt service as a percentage of operating expenditures, tax and revenue basis for the repayment of debt, the overall debt burden on the community, statutory limitations, and market factors affecting tax-exempt interest costs. Sizing of the City's capital improvement program based on debt capacity in conjunction with conservatively estimated pay-as-you-go revenues help stabilize per capita debt and lower annual debt service costs to the City for the long-term.

FISCAL YEAR 2019 HIGHLIGHTS

The residents of Sachse voted for General Obligation (GO) Bonds in the amount of $37,925,000 for facilities, parks, and transportation in November 2006. The GO Bond program is currently in progress. Construction on the Municipal Complex and the Salmon Park Improvement project have been completed, as well as numerous transportation projects throughout the City. Transportation projects remaining to be funded by the 2006 Bond Funds include the widening of Sachse Road, from 5th Street to Miles Road, and the widening of 5th Street, from Highway 78 to Sachse Road. Design of this project is complete and construction is scheduled to begin in January 2020. This project was originally slated to begin construction in FY2018, however, due to a delay at the Dallas County level, the project had to be pushed back several times.

In June 2017, the City issued $13 million in Certificates of Obligation, with debt service to be fully repaid from the Utility Fund. Proceeds have been used to fund approximately half of the construction cost for an elevated storage tank and fully fund completion of the Southeast Sewer expansion project. Both projects began in FY2018 and have made considerable progress. The elevated storage tank was substantially completed during the late summer of 2019.

Phases I and 2 of the Southeast Sewer Expansion project are nearing completion after experiencing several weather-related delays.

In November 2017, voters approved the creation and establishment of a Municipal Development District (MDD) for parks projects. The MDD is funded through ¼ percent sales tax, which took effect in April 2018. No expenditures were budgeted for FY2018. The MDD Board was established in August 2018. In FY 2019, the City was able to bring forward more than $404,172.49 to complete several park enhancement projects throughout the community including major renovations to Joe and Patricia Stone Park, Firefighters Park, Cornwall Lane Park, and Salmon Park, to name a few.

In September 2017, the City issued $10,590,000 in Certificates of Obligation to be used for the realignment of the Merritt Road and Sachse Road intersection and for the construction of a Community Center at the Municipal Complex. The realignment project will be one part of a larger project in conjunction with the North Central Texas Council of Governments to widen Merritt Road from Pleasant Valley to Sachse Road. FY2019 activity on this project included planning and design meetings with the consultant team. The construction of the Community Center was a long-time goal of this and prior City Councils, as well as, members of the community. The Michael J. Felix Community Center will officially open to the public in January 2020.

In March 2016, City Council approved funding to update the City's Comprehensive Plan. The previous Plan was adopted in 2001, prior to much of Sachse's growth and the completion of the eastern extension of the President George Bush Turnpike (PGBT). Public engagement was crucial, and during the summer months, numerous stakeholder meetings and social media surveys were conducted. The final plan was approved by the City Council in March 2017 and identified three catalytic development areas: the President George Bush Turnpike, SH 78/Ranch Road industrial Tract and Old Town. These catalytic areas are the substantial remaining developable sites in Sachse and serve as the key opportunities for creating a sustainable economic future for Sachse.

Since its adoption, several key steps have been taken to encourage projects contemplated within the Comprehensive Plan relative to the three catalytic areas. A dedicated zoning district was created in November 2017 for the President George Bush Turnpike area. This zoning was a key feature in attracting a master developer to the City. Throughout FY2018, the City worked with PMB Capital to create the framework for the development of approximately 120 acres along the PGBT. This project led to the ultimate creation of the Tax Increment Financing District Number Two and the City's first Public Improvement District. The project, known as "The Station" will be a regionally significant $250 million mixed-use development to be located along the President George Bush Turnpike, between Miles Road and Merritt Road. Sachse residents will soon have a new place to shop, dine, and play in Sachse. The Station will feature restaurants, retail, and residential space. It will also feature significant enhancements to the City's existing Heritage Park. The Station is an important contribution not only in terms of the quality of life enhancements for the community, but also in terms of its financial impacts. The Station, with its increased property values and commercial activity, is another step taken by the City Council of Sachse to diversify the community's revenue portfolio, with the ultimate goal of bringing in more commercial activity to offset the tax burden. In addition, a specified zoning district was adopted for the Old Town/5th Street area in conjunction with the Sachse Economic Development Corporation's acquisition of approximately six-acres within the Old Town/5th Street district. The City and the Sachse Economic Development Corporation are working with a master developer to design the complete build-out of the catalytic area.

A consultant was engaged during FY2016 to conduct a stormwater drainage study. The scope of the study included identifying and prioritizing drainage projects throughout the City, as well as, the feasibility of establishing a stormwater drainage fund to finance those projects. Establishment of a stormwater drainage fund was approved in October 2017, and the fee was implemented in January 2018.

AWARDS AND ACKNOWLEDGEMENTS

Awards – The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Sachse for its CAFR for the fiscal year ended September 30, 2018. This was the twentieth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The City's 2018-2019 Fiscal Year Budget received the GFOA Distinguished Budget Presentation Award. This was the sixth consecutive year the City's Budget has been so recognized. The 2019-2020 Fiscal Year Budget will also be submitted for consideration

Acknowledgements – Many people are responsible for the preparation of this report, and for the maintenance of records upon which it is based. Appreciation is expressed to representatives of Brooks Watson & Company, PLLC for their invaluable assistance in producing the final document and to the Finance team who were instrumental in the completion of this report.

We would also like to thank the Mayor, City Council, and City of Sachse staff for their assistance, interest, and support in the preparation of this document as well as their support of conducting the financial operations of the City in a responsible and progressive manner.

Respectfully submitted,

Gina Nash

FINANCIAL SECTION

City of
Sachse

BROOKSWATSON & CO.
CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and
Members of the City Council
City of Sachse, Texas:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Sachse, Texas (the "City") as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The City's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City, as of September 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note V.F. to the financial statements, the City has restated beginning fund balance/net position within governmental and business-type activities due to accounting corrections occurring in the prior year. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of changes in net pension liability and related ratios, schedule of employer contributions to pension plan, schedule of changes in other postemployment benefits liability and related ratios, and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements and other budgetary comparison information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

This accompanying supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

MANAGEMENT'S DISCUSSION AND ANALYSIS

City of
Sachse

City of Sachse, Texas

MANAGEMENT'S DISCUSSION AND ANALYSIS

September 30, 2019

As management of the City of Sachse, Texas (the "City"), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2019. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1-5 of this report.

Financial Highlights

- The assets and deferred outflows of the City exceeded its liabilities and deferred inflows (net position) at September 30, 2019 by $109,630,806. Of this amount, $19,365,630 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.

- The City's total net position increased by $6,105,396. The majority of the City's net position are invested in capital assets and restricted for specific purposes.

- The City's governmental funds reported combined ending fund balances of $26,974,210 at September 30, 2019, a decrease of $2,574,044 from the prior fiscal year; this includes an increase of $55,176 in the debt service fund, a decrease of $4,044,499 in the capital projects fund, an increase of $99,570 in the PGBT reinvestment fund, and an increase of $1,768,991 in the general fund.

- At the end of the fiscal year, unassigned fund balance for the general fund was $10,355,357 or 63% of total general fund expenditures.

- The City's total debt showed a net decrease of $3,612,114. The total governmental bonds payable at the close of the fiscal year was $39,760,000. Self-supporting debt of the proprietary fund was $12,645,000.

Overview of the Financial Statements

The discussion and analysis provided here are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) the notes to financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

Government-Wide Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City's assets and liabilities. The difference between the two is reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. Other non-financial factors, such as the City's property tax base and the condition of the City's infrastructure, need to be considered in order to assess the overall health of the City.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, public safety, public works, culture and recreation, and community development. The business-type activities of the City include water and sewer operations.

The government-wide financial statements include not only the City itself (known as the *primary government*), but also the legally separate Sachse Economic Development Corporation and Sachse Municipal Development District, for which the City is financially accountable. Financial information for this component unit is reported separately from the financial information presented for the primary government itself. The George Bush Turnpike Reinvestment Zone, although also legally separate, functions for all practical purposes as a department of the City, and therefore has been included as an integral part of the primary government.

FUND FINANCIAL STATEMENTS

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental* activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities.*

The City maintains seven individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, debt service fund, capital projects fund, and the PGBT reinvestment zone tax increment fund, which are considered to be major funds. The City's special revenue fund, impact fee fund, and street maintenance fund are considered nonmajor for reporting purposes.

The City adopts an annual appropriated budget for its general fund, debt service fund, impact fee fund, street maintenance, PGBT reinvestment zone tax increment fund and special revenue fund. A budgetary comparison statement has been provided for each fund to demonstrate compliance with the budget.

Proprietary Funds

The City maintains two types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses an enterprise fund to account for its water and sewer operations. All activities associated with providing such services are accounted for in this fund, including administration, operation, maintenance, debt service, capital improvements, meter maintenance, billing and collection. The City's intent is that costs of providing the services to the general public on a continuing basis is financed through user charges in a manner similar to a private enterprise. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for health insurance.

Proprietary financial statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water and sewer fund since it is considered a major fund of the City.

Component Units

The City maintains the accounting and financial statements for two component units. The Sachse Economic Development Corporation and the Sachse Municipal Development District are reported as discrete component units on the government-wide financial statements. The George Bush Turnpike Reinvestment Zone is reported as a blended component unit and is a major fund.

Notes to Financial Statements

The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* concerning the City's progress in funding its obligation to provide pension benefits to its employees and budgetary comparison for the general fund.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted previously, net position may serve over time as a useful indicator of the City's financial position. For the City of Sachse, assets exceed liabilities by $109,630,806 as of September 30, 2019 in the primary government.

The largest portion of the City's net position, $82,862,060, reflects its investments in capital assets (e.g., land, city hall, police station, streets, and drainage systems, as well as the public works facilities), less any debt used to acquire those assets that are still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the assets themselves cannot be used to liquidate these liabilities.

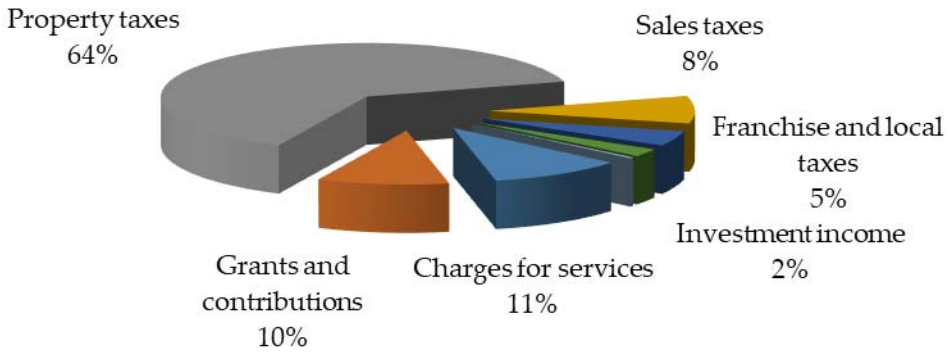
Graphic presentations of selected data from the summary tables are displayed below to assist in the analysis of the City's activities.

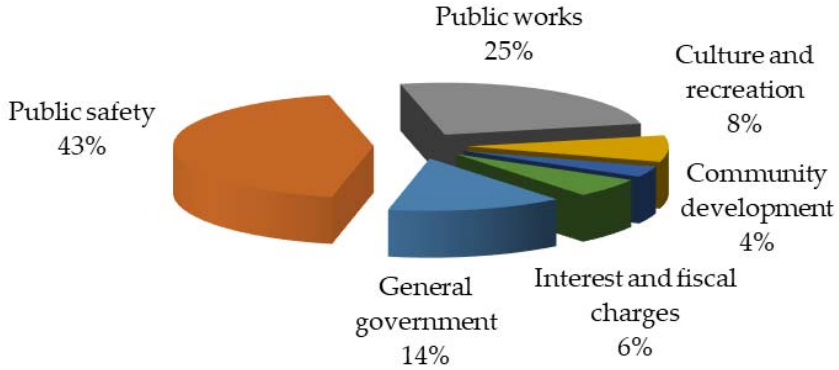
Governmental Activities - Revenues



For the year ended September 30, 2019, revenues from governmental activities totaled $26,381,493. Property tax, sales tax, and charges for services are the City's largest general revenue sources. Overall revenue increased $2,881,565 or 12% primary due to new contributed capital that was received during the year and an increase in property tax and sales tax revenue. Grants and contributions increased by $1,869,906 related to the aforementioned contributed capital. Property tax revenue increased $1,072,422 or 7% due to an increase in property values and a growing tax base. Sales tax increased by $159,354 or 8% due to continued economic growth within the City. Charges for services decreased by $321,768 or 10%, primarily from a decrease in construction-related permits and fees compared to prior year. Investment income increased by $242,696 or 62% due primarily to increases in interest-bearing cash accounts. Other revenues decreased by $76,762 or 45% primarily as a result of nonrecurring auction proceeds received in the prior year. All other revenues remained relatively stable when compared to the previous year.

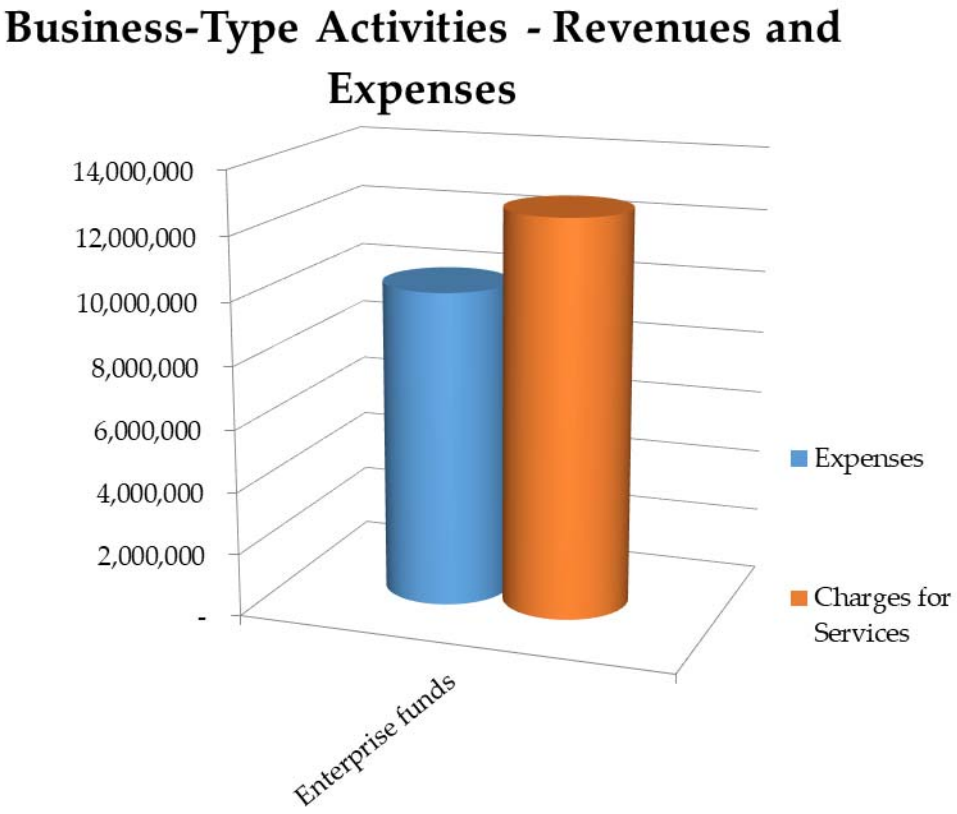
This graph shows the governmental function expenses of the City:

Governmental Activities - Expenses



For the year ended September 30, 2019, expenses for governmental activities totaled $23,743,513. This represents an increase of $1,270,427 or 6% from the prior year. The City's largest functional expense is public safety of $10,237,626 and demonstrated a 5% increase from prior year. This increase is attributed primarily to increases in personnel costs due to the change in the City's net pension liability. General government expenses increased by $480,973 or 17% due primarily to IT personnel expenses and nonrecurring software maintenance costs. Public works increased by $485,783 or 9% due to increased depreciation expense and personnel costs due to the change in the City's net pension liability. Interest and fiscal charges decreased by $145,472 or 9% due to long-term obligations approaching maturity. All expenses remained relatively consistent with the previous year.

Business-type activities are shown comparing operating costs to revenues generated by related services.



For the year ended September 30, 2019, charges for services by business-type activities totaled $12,502,551. This is a decrease of $1,030,426 or 8% from the previous year. This decrease directly relates to decreased water and sewer consumption by the local citizens.

Total expenses increased $722,311 to a total of $10,064,944, due primarily to increased sewer contract costs from City of Garland, TX, the City's source of sewer operations. In addition, the City's cost increased from the North Texas Municipal Water District, the City's source of water.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, fund accounting is used to demonstrate and ensure compliance with finance-related legal requirements.

Governmental Funds - The focus of the City's governmental funds is to provide information of near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the City's net resources available for spending at the end of the year.

At September 30, 2019, the City's governmental funds reported combined fund balances of $26,974,210, a decrease of $2,574,044 in comparison with the prior year. Approximately 33% of this amount, $8,977,817, constitutes *unassigned fund balance,* which is available for spending at the government's discretion. The remainder of the fund balance is either *nonspendable, assigned, or restricted* to indicate that it is 1) not in spendable form, $77,251, 2) assigned for particular purpose, $788,338, or 3) restricted for particular purposes, $17,130,804.

As of the end of the year the general fund reflected a total fund balance of $10,432,608. Of this, $77,251 is considered nonspendable and $10,355,357 is unassigned. This increase in fund balance is attributable to greater than anticipated revenues and budgeted expenditures exceeding actual expenditures.

As a measure of the general fund's liquidity, it may be useful to compare total fund balance to total fund expenditures. The total fund balance of general fund is 63% of total general fund expenditures. The unassigned (the amount available for spending) fund balance of the general fund of $10,355,357 is 63% of total general fund expenditures.

The debt service fund had an ending fund balance of $831,218 at September 30, 2019, an increase of $55,176. The increase was a result of property tax revenues exceeding debt service expenditures.

The capital projects fund ending fund balance is $12,270,112, a decrease of $4,044,499. The decrease is due to project expenditures incurred in the current year that were financed from prior years' revenues. During the year, the City expended $6,649,758 on various projects, utilizing funds designated for capital projects. The City has a separate capital projects fund to account for replacement of vehicles and equipment.

The PGBT reinvestment zone is used to track property tax collected for development. During the year the fund received $99,570 in property taxes. The fund balance increased by $99,570 as a result of the property tax revenues received. All revenues received are applied to advances from the water and sewer fund and the Sachse Economic Development Corporation.

Proprietary Funds - The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Net position in the water and sewer fund

totaled $37,345,688. Unrestricted net position of the enterprise fund at the close of the fiscal year amounted to $13,145,910. Total net position demonstrated an increase of $1,798,122. The fund had a net investment in capital assets of $24,199,778. The City operates and maintains a water and sewer distribution system with force mains and lift stations. The City has seven water storage facilities with a total capacity of approximately 8.15 million gallons. The following are additional comments regarding operations of the enterprise fund:

- The City received capital contributions of $564,030 consisting of water and sewer infrastructure.
- Operational expenses excluding depreciation and amortization were $7,782,536.
- Cash and cash equivalents in the water and sewer fund were $9,170,619 at fiscal yearend.
- Restricted cash in the water and sewer fund were $4,354,492 at fiscal yearend.

An internal service fund was established for the purpose of tracking and allocating expenses for employee insurance. Revenue consists of budgeted allocations transferred from the general and water and sewer funds. Expenses consist of premiums paid for health, dental, and life insurance, as well as contributions to health savings accounts and deductible reimbursements. The fund had an ending fund balance of $388,082 to be retained for future risk.

GENERAL FUND BUDGETARY HIGHLIGHTS

There were no budget amendments approved during the fiscal year. There was a positive variance of $953,281 over budgeted general fund revenues. The following are additional comments regarding appropriations:

- There was a total positive variance of $702,021 in budgeted expenditure appropriations.
- $1,655,302 is the budget surplus of revenues over expenditures before transfers.
- There was an actual net positive change in fund balance of $1,768,991.

CAPITAL ASSETS

As of the end of the year, the City's governmental activities funds had invested $89,563,567 in a variety of capital assets and infrastructure, net of accumulated depreciation. The City's business-type activities funds had invested $34,458,783 in a variety of capital assets and infrastructure, net of accumulated depreciation. This investment in capital assets includes land, buildings, vehicles, equipment, park improvements, and infrastructure. The City's total investment in capital assets increased by $12,472,041, net of depreciation.

Major capital asset events during the current year include the following:

- Contribution of assets by a developer and the Sachse Municipal Development District totaling $2,838,893.
- Purchase of new vehicles for governmental activities totaling $289,725.

- Investment in new machinery and equipment for governmental activities amounting to $225,029.
- New construction costs for the Sachse Community Center totaling $5,050,718.
- Merrit Road to Woodbridge realignment project costs totaling $303,914.
- Brookview Court Alley paving and drainage updates amounting $147,971.
- Investment in the southwest sewer expansion project totaling $7,213,287.
- Water storage tank updates totaling $1,658,465.

More detailed information about the City's capital assets is presented in note IV. C to the financial statements.

LONG-TERM DEBT

At the end of the current fiscal year, the City had total bonded debt obligations of $52,405,000. Of this amount, $12,645,000 is self-supporting through revenues collected from the rates of the City's utility fund. All of the City's debt is backed by a full-faith credit pledge of property taxes with a limited pledge of revenues of the enterprise/utility system. The City monitors its debt obligations and callable bonds for refinancing opportunities with market conditions.

More detailed information about the City's long-term liabilities is presented in note IV. D and E to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The 2019-2020 Fiscal Year Budget was approved by City Council on September 16, 2019. The tax rate adopted that same day was $72 per $100 assessed value, unchanged from the previous year. There was an increase in taxable values of $105 million (4.51%) from the previous year, resulting in an overall increase in budgeted ad valorem taxes of $876,595 to be allocated across the General, Debt Service, and PGBT Tax Increment Financing Funds. Overall, budgeted revenue for the General Fund increased by $1,263,986 to a total of $19,587,487. Budgeted expenditures increased by $1,319,044 to a total of $19,563,143.

Budgeted revenue in the Utility Fund was estimated using rates adopted in April 2019, following a five-year update to the Utility Fund's cost-of-service and rate plan. The adopted rates included a 5% increase to base and volume charges for wastewater treatment, while fixed water charges remained unchanged and volume charges for water were reduced. Utility rates will be reviewed annually during the budget process. Budgeted revenues increased $1,625,208 to an estimated $13,308,042, and expenditures increased by $230,522.

The City's capital budget includes $5,037,608 in new funding for various projects city-wide. Unlike the operating budget, funding for budgeted capital projects does not expire at the end of the fiscal year but continues until the project is complete. By funding source, the amount budgeted includes $810,000

from the General Fund, $1,636,500 from the Utility Fund, $396,000 in unobligated Capital Projects funds, $305,000 in Street Maintenance Taxes, $80,000 in Municipal Development District Taxes, and $1,810,108 from Impact Fees. Projects include completion of Phase I of Sachse Road/5th Street reconstruction, 50% matching funds for roadway rehabilitation within the Dallas County portion of the City, rehabilitation of restrooms at Salmon Park.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

The financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the City's finances. If you have questions about this report or need any additional information, contact the Department of Finance at 3815-B Sachse Rd., Sachse Texas 75048 or call (972) 495-1212.

RECONCILIATION OF THE BALANCE SHEET TO THE STATEMENT OF NET POSITION
GOVERNMENTAL FUNDS
September 30, 2019

Fund Balances - Total Governmental Funds	$	26,974,210
Adjustments for the Statement of Net Position:		
Capital assets used in governmental activities are not current financial resources and, therefore, not reported in the governmental funds.		
Capital assets - non-depreciable		16,904,589
Capital assets - net depreciable		72,658,978
Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the governmental funds.		
Property tax receivable		147,005
Fines receivable		6,869
Ambulance receivables		57,043
Deferred outflows (inflows) of resources represent a consumption (acquisition) of net position that applies to a future period(s) and is not recognized as an outflow (inflows) of resources (expense/expenditure)/(revenue) until then.		
Deferred charge on refunding		2,338,136
Pension contributions		991,133
OPEB contributions		1,340
Pension changes in assumptions		1,019
Pension investment returns		1,266,019
Pension differences in experience		575,812
OPEB assumption changes		(2,957)
OPEB difference in experience		(4,808)
Internal service funds are used by management to charge the cost of insurance to individual departments and funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.		388,082
Some liabilities, including bonds payable and deferred charges, are not reported as liabilities in the governmental funds.		
Accrued interest		(179,565)
Bond premium		(2,467,981)
Bond discount		2,437
Compensated absences		(660,212)
Non-current liabilities due in one year		(2,105,000)
Non-current liabilities due in more than one year		(37,655,000)
Net pension liability		(6,662,470)
OPEB liability		(289,561)
Net Position of Governmental Activities	$	72,285,118

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Year Ended September 30, 2019

Amounts reported for governmental activities in the statement of activities are different because:		
Net changes in fund balances - total governmental funds	$	(2,574,044)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.		
Capital outlay		6,863,467
Depreciation expense		(4,577,617)
Capital contributions		2,274,863
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		28,162
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		
Compensated absences		(6,877)
Accrued interest		7,298
Pension expense		(780,612)
OPEB expense		(28,743)
The issuance of long-term debt (e.g., bonds, leases, certificates of obligation) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when they are first issued; whereas, these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		
Net change in deferred charges on refunding		(182,933)
Amortization of debt discount		(174)
Amortization of debt premium		198,447
Principal payments on long-term debt		3,040,000
Internal service funds are used by management to charge the cost of health insurance to individual funds. The net revenue of certain activities of internal service funds is reported with governmental activities.		46,037
Change in Net Position of Governmental Activities	$	4,307,274

See Notes to Financial Statements.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The City of Sachse, Texas (the "City") was incorporated in 1956 under the provisions of Chapter 11, Title 28, Texas Revised Civil Statutes of 1925 and has adopted a charter making it a home rule city operating under a Council-Manager form of government. The City provides such services as are authorized by its charter to advance the welfare, health, comfort, safety and convenience of the City and its inhabitants.

The City is an independent political subdivision of the State of Texas governed by an elected council and a mayor and is considered a primary government. As required by generally accepted accounting principles, these basic financial statements have been prepared based on considerations regarding the potential for inclusion of other entities, organizations, or functions as part of the City's financial reporting entity. The Sachse Economic Development Corporation (the "SEDC") and the Sachse Municipal Development District (the "MDD"), although legally separate, are considered part of the reporting entity. No other entities have been included in the City's reporting entity. Additionally, as the City is considered a primary government for financial reporting purposes, its activities are not considered a part of any other governmental or other type of reporting entity.

Considerations regarding the potential for inclusion of other entities, organizations or functions in the City's financial reporting entity are based on criteria prescribed by generally accepted accounting principles. These same criteria are evaluated in considering whether the City is a part of any other governmental or other type of reporting entity. The overriding elements associated with prescribed criteria considered in determining that the City's financial reporting entity status is that of a primary government are that it has a separately elected governing body; it is legally separate; and is fiscally independent of other state and local governments. Additionally prescribed criteria under generally accepted accounting principles include considerations pertaining to organizations for which the primary government is financially accountable, and considerations pertaining to organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Blended Component Unit

President George Bush Turnpike (PGBT) Reinvestment Zone Tax Increment Fund

The City created the PGBT Reinvestment Zone Tax Increment Fund (the "TIF") in November 2003 to encourage and accelerate planned development along the George Bush Eastern Extension of the Turnpike to the City. The five member Board of Directors are appointed by the Sachse City Council and serve for two-year staggered terms. The members of the Board are citizens of Sachse. Any future debt obligations issued and backed by the TIF are to be

repaid from property tax levies, based on the incremental increase in the real property values from the base year 2003.

The TIF Board of Directors acts primarily in an advisory role to the City Council, who exercise the ultimate financial control over the recommendations of the TIF board, including its budget and expenditures. The financial information of the TIF is blended as a governmental fund into the primary government. Separate financial statements are not prepared.

Discretely Presented Component Units

Sachse Economic Development Corporation

The Sachse Economic Development Corporation (the "SEDC") serves all citizens of the City and is governed by a seven member board of directors appointed by the Sachse City Council. An Executive Director is appointed by the SEDC seven member board to carry out the Board's administrative and policy initiatives. The SEDC does not provide services entirely, or almost entirely to the City, nor does it maintain debt of any type that are repaid using City resources. The SEDC is a 4B Corporation and is supported by a half-cent sales tax voted by referendum in 1994. The scope of public service of the SEDC benefits citizens and is operated primarily within geographic boundaries of the City.

Separate financial statements are not prepared. However, additional financial information for the SEDC may be obtained at the entity's administrative offices at the following address: Sachse Economic Development Corporation 3815 Sachse Road, Sachse, Texas 75048.

Sachse Municipal Development District

The Sachse Municipal Development District (the "MDD") was created for the purpose of developing and financing all development projects specifically related to park and recreation projects and facilities. The MDD is governed by a seven member board of directors appointed by the Sachse City Council. The City's Parks and Recreation Director will serve as the City Liaison to the MDD, provide administrative support services for the MDD, and perform duties for the Board, as prescribed by City Council. The MDD does not provide services entirely, or almost entirely to the City, nor does it maintain debt of any type that are repaid using City resources. The MDD is a 4B Corporation and is supported by a one-fourth of one percent sales tax voted by referendum on November 17, 2017. The scope of public service of the MDD benefits the government and its citizens and is operated primarily within geographic boundaries of the City.

Separate financial statements are not prepared. However, additional financial information for the MDD may be obtained at the entity's administrative offices at the following address: Sachse Municipal Development District 3815-B Sachse Road, Sachse, Texas 75048.

B. Basis of Presentation - Government-Wide and Fund Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds and the proprietary funds.

As discussed earlier, the government has one discretely presented component unit and is shown in separate columns in the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes where the amounts are reasonably equivalent in value to the interfund services provided and other charges between the government's water and transit functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

The fund financial statements provide information about the government's funds, including its fiduciary funds and blended component units. Separate statements for each fund category; governmental and proprietary are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The government reports the following governmental funds:

General Fund

The general fund is used to account for all financial transactions not properly includable in other funds. The principal sources of revenues include local property taxes, sales and franchise taxes, licenses and permits, fines and forfeitures, and charges for services. Expenditures include general government, public safety, public works, culture and recreation, community development, and nondepartmental. This fund is considered to be a major fund.

Debt Service Fund

The debt service fund is used to account for the payment of interest and principal on all general obligation bonds and other long-term debt of governmental funds. The primary source of revenue for debt service is local property taxes. This fund is considered to be a major fund.

Capital Projects Fund

The capital projects fund accounts for the acquisition and construction of the government's major capital facilities, other than those financed by proprietary funds. The City has an internal vehicle replacement fund and it is presented with the Capital Projects Fund in the fund financial statements. This fund is considered to be a major fund.

Impact Fee Fund

The impact fee fund accounts for impact fees collected for specific projects related to development within the City. This fund is considered to be a nonmajor fund.

PGBT Reinvestment Zone Tax Increment Fund

The PGBT Reinvestment Zone Tax Increment Fund was created to encourage and accelerate planned development along the George Bush Eastern Extension of the Turnpike to the City. The fund accounts for all tax and expenditure activity associated with the fund's primary purpose. This fund is considered major for reporting purposes.

Street Maintenance Fund

The street maintenance fund is used to account for a sales tax restricted for street maintenance. The fund is considered nonmajor for reporting purposes.

Special Revenue Fund

The special revenue fund is used to account for proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. Revenue sources for this fund include donations, fines and fees, and grants. This fund is considered nonmajor for reporting purposes.

The government reports the following major enterprise fund:

Water & Sewer Fund

This fund is used to account for the provision of water and sewer services to the residents of the City. Activities of the fund include administration, operations and maintenance of the water production and distribution system, water collection and treatment systems. The fund also accounts for the accumulation of resources for and the payment of long-term debt. All costs are financed through charges to utility customers.

The government reports the following internal service fund:

Health Insurance Fund

This fund is used to account for health insurance benefits provided to City employees.

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

C. Measurement focus and basis of accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources.* The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). All other revenue items are considered to be measurable and available only when cash is received by the government.

The proprietary, pension and other postemployment benefit trust, and private-purpose trust funds are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Agency funds have no measurement focus but utilize the *accrual basis of accounting* for reporting its assets and liabilities.

D. Assets, Liabilities, and Fund Equity or Net Position

1. Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short term investments with original maturities of three months or less from the date of acquisition. For the purpose of the statement of cash flows, the proprietary fund types consider temporary investments with maturity of three months or less when purchased to be cash equivalents.

In accordance with GASB Statement No. 31, *Accounting and Reporting for Certain Investments and External Investment Pools*, the City reports all investments at fair value, except for "money market investments" and "2a7-like pools." Money market investments, which are short-term highly liquid debt instruments that may include U.S. Treasury and agency obligations, are reported at amortized costs. Investment positions in external investment pools that are

operated in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940, such as TexPool, are reported using the pools' share price.

The City has adopted a written investment policy regarding the investment of its funds as defined in the Public Funds Investment Act, Chapter 2256, of the Texas Governmental Code. In summary, the City is authorized to invest in the following:

Direct obligations of the U.S. Government
Fully collateralized certificates of deposit and money market accounts
Statewide investment pools

2. Fair Value Measurement

The City has applied Governmental Accounting Standards Board ("GASB") Statement No. 72, Fair Value Measurement and Application. GASB Statement No. 72 provides guidance for determining a fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements.

3. Receivables and Interfund Transactions

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the year are referred to as either "interfund receivables/payables" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds" in the fund financial statements. If the transactions are between the primary government and its component unit, these receivables and payables are classified as "due to/from component unit/primary government." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds are offset by a nonspendable fund balance account in the applicable governmental fund to indicate they are not available for appropriation and are not expendable available financial resources.

All trade receivables are shown net of any allowance for uncollectible amounts.

4. Inventories and Prepaid Items

The costs of governmental fund type inventories are recorded as expenditures when the related liability is incurred, (i.e., the purchase method). The inventories of supplies are reported at cost using the first-in/first-out method. Certain payments to vendors reflect costs applicable to future accounting periods (prepaid expenditures) are recognized as expenditures when utilized (the consumption method).

5. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government, as assets with an initial individual cost of more than $5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Interest costs incurred in connection with construction of enterprise fund capital assets are capitalized when the effects of capitalization materially impact the financial statements.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Property, plant, and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful years.

Asset Description	Estimated Useful Life
Vehicles	5 to 10 years
Machinery and equipment	5 to 10 years
Infrastructure	5 to 30 years
Buildings and improvements	25 years

6. Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

7. Fund Balance Flow Assumptions

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the

government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds it is not appropriate to report a positive unassigned fund balance amount. However, in governmental funds other than the general fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in the fund.

8. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The governing council is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The governing body (council) has by resolution authorized the finance director to assign fund balance. The council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

The government has adopted a policy to maintain a minimum reserve of an amount equal to or greater than 25% of operating expenditures. The utility fund working capital should be maintained at a minimum of 20-25% of the total operating expenditures or the equivalent of 75 days. The debt service fund reserve is maintained at a level to support interest and principal payments in the event of a delay in property tax collections.

9. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. The long-term debt consists primarily of bonds payable and accrued compensated absences.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements until due. The debt proceeds are reported as other financing sources, net of the applicable premium or discount and payments of principal and interest reported as expenditures. In the governmental fund types, issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures. However, claims and judgments paid from governmental funds are reported as a liability in the fund financial statements only for the portion expected to be financed from expendable available financial resources.

Long-term debt and other obligations, financed by proprietary funds, are reported as liabilities in the appropriate funds. For proprietary fund types, bond premiums, discounts and issuance costs are deferred and amortized over the life of the bonds using the effective interest method, if material. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs are reported as deferred charges.

Assets acquired under the terms of capital leases are recorded as liabilities and capitalized in the government-wide financial statements at the present value of net minimum lease payments at inception of the lease. In the year of acquisition, capital lease transactions are recorded as other financing sources and as capital outlay expenditures in the general fund. Lease payments representing both principal and interest are recorded as expenditures in the general fund upon payment with an appropriate reduction of principal recorded in the government-wide financial statements.

10. Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

11. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the Fiduciary Net Position of the Texas Municipal Retirement System (TMRS) and additions to/deductions from TMRS's Fiduciary Net Position have been determined on the same basis

as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

12. Other Postemployment Benefits ("OPEB")

The City has implemented GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. This statement applies to the individual employers (TMRS cities) in the TMRS Supplemental Death Benefits (SDB) plan, with retiree coverage. The TMRS SDBF covers both active and retiree benefits with no segregation of assets, and therefore doesn't meet the definition of a trust under GASB No. 75 (i.e., no assets are accumulated for OPEB) and as such the SDBF is considered to be an unfunded OPEB plan. For purposes of reporting under GASB 75, the retiree portion of the SDBF is not considered a cost sharing plan and is instead considered a single employer, defined benefit OPEB plan. The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary, calculated based on the employee's actual earnings on which TMRS deposits are made, for the 12-month period preceding the month of death. The death benefit amount for retirees is $7,500. GASB No. 75 requires the liability of employers and nonemployer contributing entities to employees for defined benefit OPEB (net OPEB liability) to be measured as the portion of the present value of projected benefit payments to be provided to current active and inactive employees that is attributed to those employees' past periods of service (total OPEB liability), less the amount of the OPEB plan's fiduciary net position.

13. Deferred Outflows and Inflows of Resources

In addition to assets and liabilities, the Statement of Financial Position and/or Balance Sheet will sometimes report a separate section for deferred outflows and deferred inflows of resources. Deferred outflows of resources represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

The City has the following items that qualify for reporting as deferred outflows:

Deferred Loss on Refunding – these deferred outflows result from the difference in the carrying value of refunded debt and its acquisition price. The amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Pensions/OPEB – these deferred outflows result from pension/OPEB contributions after the measurement date (deferred and recognized in the following fiscal year) and/or the differences between expected and actual economic experience and assumption changes.

The City has the following items that qualify for reporting as deferred inflows:

Pensions – at the government-wide level these deferred inflows result from differences due to pension assumption changes.

Unavailable Revenues – at the fund level these deferred inflows result from property tax, ambulance, and court revenues that have not been received in the current period and are unavailable until collected.

E. Revenues and Expenditures/Expenses

1. Program Revenues

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

2. Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. Under state law, property taxes levied on real property constitute a lien on the real property which cannot be forgiven without specific approval of the State Legislature. The lien expires at the end of twenty years. Taxes levied on personal property can be deemed uncollectible by the City.

3. Compensated Absences

City employees earn vacation and sick leave, which may either be taken or accumulated, up to certain amounts, until retirement or termination. Once per year, employees with accumulations greater than 40 hours may redeem 3 days of sick and vacation leave. Upon termination or retirement, an employee is reimbursed up to a maximum number of hours of unused vacation pay based upon the years of service. Sick leave is not paid at termination or retirement. All vacation and qualifying sick leave is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they are expected to be liquidated with expendable available financial resources, for example, as a result of employee resignations and retirements. Vested or accumulated vacation leave and compensated leave of government-

wide and proprietary funds are recognized as an expense and liability of those funds as the benefits accrue to employees.

It is the City's policy to liquidate compensated absences with future revenues rather than with currently available expendable resources. Accordingly, the City's governmental funds recognize accrued compensated absences when it is paid.

4. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer fund are charges to customers for sales and services. The water and sewer fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise fund includes the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position.

The governmental fund balance sheet includes reconciliation between *fund balance-total governmental funds* and *net position-governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that long-term liabilities, including bonds, are not due and payable in the current period and, therefore, are not reported in the funds.

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities.

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net position of governmental states that, "the issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities."

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Annual budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP) for the general, debt service, SEDC, special revenue, impact fee, street maintenance, and utility funds. The original budget is adopted by the City Council prior to the beginning of the year. The legal level of control as defined by the City Charter is the department level. No funds can be transferred or added to a budgeted item without Council approval. Appropriations lapse at the end of the year. Supplemental budget appropriations were made during the year, impacting the Impact Fee Fund and the Street Maintenance Fund.

A. Expenditures Over Appropriations

For the year ended, expenditures exceeded appropriations at the legal level of control and as follows:

General Fund:

IT	$2,256
Facility maintenance	$4,243

Debt Service Fund

Principal	$6,442
Interest	$7,772

Special Revenue Fund

Capital outlay	$147

Street Maintenance Fund:

Capital outlay	$27,029

The City has implemented procedures to ensure budgetary compliance. No expenditure can be made unless there is a budget available or an approved budget amendment has been submitted. Department head and management will review the budget variances on a regular basis and the budget will be amended if necessary.

B. Deficit Fund Equity

At September 30, 2019, the PGBT Reinvestment Zone TIF has a deficit fund balance of $1,377,540. The deficit will be eliminated in the future with development of the zone and issuance of new debt.

IV. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

As stated in I.D.1., the City's cash and cash equivalents are considered to be cash on hand, demand deposits and short term investments with original maturities of three months or less from the date of acquisition. The City's investments in 2a7-like pools such as TexPool are included in this category. Although the City's investments in TexPool are available for immediate withdrawal, disclosure of the pool's weighted average maturity and bond rating are required. The City had the following deposits considered to be cash and cash equivalents at year end:

Investment Type	Value	Weighted Average Maturity	Credit Rating
Bank deposits	$ 3,863,809	-	-
Money market accounts	13,356,803	-	-
External investment pools			
TexPool	18,297,835	34 days	AAAm
Total fair value	$ 35,518,447		

The discretely presented component units, Sachse EDC and MDD, had the following deposits considered to be cash and cash equivalents at year end:

Investment Type	Value
Bank deposits	$ 395,792
Money market account	1,481,921
Total fair value	$ 1,877,713

As of September 30, 2019, the primary government had the following investments:

Investment Type	Value	Weighted Average Maturity (Years)
Certificates of deposit	$ 10,289,407	0.16

Interest rate risk In accordance with its investment policy, the City manages its exposure to declines in fair values by limiting the weighted average of maturity not to exceed five years; structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations; monitoring credit ratings of portfolio position to assure compliance with rating requirements imposed by the Public Funds Investment Act; and invest operating funds primarily in short-term securities or similar government investment pools.

Credit risk The City's investment policy limits investments to obligations of the United States, State of Texas, or their agencies and instrumentalities with an investment quality rating of not less than "A" or its equivalent, by a nationally recognized investment rating firm. Other obligations must be unconditionally guaranteed (either express or implied) by the full faith and credit of the United States Government or the issuing U.S. agency and investment pools with an investment quality not less than AAA or AAA-m, or equivalent, by at least one nationally recognized rating service. As of September 30, 2019, the City's investment in TexPool was rated AAAm by Standard & Poor's.

Custodial credit risk – deposits In the case of deposits, this is the risk that in the event of a bank failure, the City's deposits may not be returned to it. State statutes require that all deposits in financial institutions be insured or fully collateralized by U.S. government obligations or its agencies and instrumentalities or direct obligations of Texas or its agencies and instrumentalities that have a market value of not less than the principal amount of the deposits. As of September 30, 2019, the market values of pledged securities and FDIC exceeded bank balances.

Custodial credit risk – investments For an investment, this is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City's investment policy requires that it will seek to safekeeping securities at financial institutions, avoiding

physical possession. Further, all trades, where applicable, are executed by delivery versus payment to ensure that securities are deposited in the City's safekeeping account prior to the release of funds.

TexPool

TexPool was established as a trust company with the Treasurer of the State of Texas as trustee, segregated from all other trustees, investments, and activities of the trust company. The State Comptroller of Public Accounts exercises oversight responsibility over TexPool. Oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool. The advisory board members review the investment policy and management fee structure. Finally, Standard & Poor's rate TexPool AAAm. As a requirement to maintain the rating, weekly portfolio information must be submitted to Standard & Poor's, as well as to the office of the Comptroller of Public Accounts for review. There were no limitations or restrictions on withdrawals.

B. Receivables

The following comprise receivable balances of the primary government at year end:

	General	Debt Service	Street Maintenance	Special Revenue	Water & Sewer	Total
Property taxes	$ 111,718	$ 36,766	$ -	$ -	$ -	$ 148,484
Sales tax	328,000	-	79,700	-	-	407,700
Franchise taxes	282,270	-	-	-	-	282,270
Fines	193,029	-	-	-	-	193,029
EMS	219,395	-	-	-	-	219,395
Accounts	-	-	-	-	1,798,394	1,798,394
Other	24,365	-	-	7,018	177,871	209,254
Allowance	(327,905)	-	-	-	(48,258)	(376,163)
	$ 830,872	$ 36,766	$ 79,700	$ 7,018	$ 1,928,007	$ 2,882,363

The following comprise receivable balances of the component units at year end:

	Sachse EDC	Sachse MDD	Total
Sales tax	$ 159,344	$ 74,659	$ 234,003
	$ 159,344	$ 74,659	$ 234,003

C. Capital Assets

A summary of changes in governmental activities capital assets for the year end was as follows:

	Beginning Balances	Increases	Decreases/ Reclassifications	Ending Balances
Capital assets, not being depreciated:				
Land	$ 8,895,278	$ -	$ -	$ 8,895,278
Construction in progress	2,959,209	5,689,336	(639,234)	8,009,311
Total capital assets not being depreciated	11,854,487	5,689,336	(639,234)	16,904,589
Capital assets, being depreciated:				
Buildings and improvements	20,109,688	49,463	-	20,159,151
Vehicles and equipment	10,836,251	823,879	(20,840)	11,639,290
Infrastructure	127,259,179	2,575,652	639,234	130,474,065
Total capital assets being depreciated	158,205,118	3,448,994	618,394	162,272,506
Less accumulated depreciation				
Buildings and improvements	7,958,940	941,299	-	8,900,239
Vehicles and equipment	6,014,810	673,960	(20,840)	6,667,930
Infrastructure	71,083,001	2,962,358	-	74,045,359
Total accumulated depreciation	85,056,751	4,577,617	(20,840)	89,613,528
Net capital assets being depreciated	73,148,367	(1,128,623)	639,234	72,658,978
Total Capital Assets	$ 85,002,854	$ 4,560,713	$ -	$ 89,563,567

Depreciation was charged to governmental functions as follows:

General government	$ 427,508
Public safety	633,533
Public works	3,181,238
Culture and recreation	323,656
Community development	11,682
Total Governmental Activities Depreciation Expense	$ 4,577,617

A summary of changes in business-type activities capital assets for the year end was as follows:

	Beginning Balances	Increases	Decreases/ Reclassifications	Ending Balances
Capital assets, not being depreciated:				
Land	$ 880,675	$ -	$ -	$ 880,675
Construction in progress	2,913,288	9,125,781	-	12,039,069
Total capital assets not being depreciated	3,793,963	9,125,781	-	12,919,744
Capital assets, being depreciated:				
Buildings and improvements	313,503	-	-	313,503
Vehicles and equipment	1,331,344	81,352	-	1,412,696
Infrastructure	52,506,467	584,205	-	53,090,672
Total capital assets being depreciated	54,151,314	665,557	-	54,816,871
Less accumulated depreciation				
Buildings and improvements	272,781	5,351	-	278,132
Vehicles and equipment	1,013,144	57,447	-	1,070,591
Infrastructure	30,111,897	1,817,212	-	31,929,109
Total accumulated depreciation	31,397,822	1,880,010	-	33,277,832
Net capital assets being depreciated	22,753,492	(1,214,453)	-	21,539,039
Total Capital Assets	$ 26,547,455	$ 7,911,328	$ -	$ 34,458,783

Depreciation was charged to business-type activities as follows:

Water	$ 1,136,762
Sewer	743,248
Total Business-Type Activities Depreciation Expense	$ 1,880,010

D. Other Long-term Liabilities

The following summarizes the changes in other long-term liabilities of the primary government during the year:

	Beginning Balance	Additions	Reductions	Ending Balance	Amounts Due Within One Year
Governmental Activities:					
Compensated Absences	$ 653,335	$ 6,877	$ -	$ 660,212	$ 594,191
Total Governmental Activities	$ 653,335	$ 6,877	$ -	$ 660,212	$ 594,191
Business-Type Activities:					
Compensated Absences	$ 33,745	$ 891	$ -	$ 34,636	$ 31,172
Total Business-Type Activities	$ 33,745	$ 891	$ -	$ 34,636	$ 31,172
Component Unit Activities - Sachse EDC:					
Compensated Absences	$ 2,772	$ -	$ (627)	$ 2,145	$ 1,931
Total Component Unit Activities	$ 2,772	$ -	$ (627)	$ 2,145	$ 1,931

E. Long-term Debt

The following is a summary of changes in the City's total governmental long-term liabilities for the year ended. The general fund and utility funds have typically been used to liquidate the liability for compensated absences for the primary government.

	Beginning Balance	Additions	Reductions	Ending Balance	Amounts Due within One Year
Governmental Activities:					
Bonds, notes and other payables:					
Certificates of Obligations	$ 10,350,000	$ -	$ (270,000)	$ 10,080,000	$ 280,000
General Obligation Bonds	31,575,000	-	(2,605,000)	28,970,000	1,655,000
Discount	(2,611)	-	174	(2,437)	-
Premium	2,666,428	-	(198,447)	2,467,981	-
Tax notes	875,000	-	(165,000)	710,000	170,000
Total Governmental Activities	$ 45,463,817	$ -	$ (3,238,273)	$ 42,225,544	$ 2,105,000
Long-term liabilities due in more than one year				$ 40,120,544	
Business-Type Activities:					
Bonds, notes and other payables:					
Certificates of Obligation	$ 12,490,000	$ -	$ (225,000)	$ 12,265,000	$ 230,000
General Obligation Bonds	500,000	-	(120,000)	380,000	125,000
Premium	456,686	-	(28,841)	427,845	-
Total Business-Type Activities	$ 13,446,686	$ -	$ (373,841)	$ 13,072,845	$ 355,000
Long-term liabilities due in more than one year				$ 12,717,845	

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly, are not reported as fund liabilities in the governmental funds. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. The City intends to retire all of its general long-term liabilities, plus accrued interest, from property taxes and other current revenues from the debt service fund as has been done in prior years. The business-type long-term debt will be repaid, plus accrued interest, from operating revenues of the water and sewer fund.

Long-term debt at year end was comprised of the following debt issues:

Description	Interest Rates	Original Balance	Current Balance
Governmental Activities:			
2009 General obligation refunding and improvement bonds	3.0-5.88%	$ 34,560,000	$ 1,640,000
2015 General obligation refunding and improvement bonds	2.0-4.0%	9,470,000	8,880,000
2016 General obligation refunding bonds	2.0-4.0%	20,025,000	18,450,000
2016 Tax notes	2.0-3.0%	1,200,000	710,000
2017A Certificates of obligation	3.0-4.0%	10,590,000	10,080,000
Total Governmental Activities		$ 75,845,000	$ 39,760,000
Business-type Activities:			
2016 General obligation refunding bonds	2.0-4.0%	$ 620,000	$ 380,000
2017 Certificates of obligation	3.0-4.0%	12,670,000	12,265,000
Total Business-Type Activities		$ 13,290,000	$ 12,645,000
Total		$ 89,135,000	$ 52,405,000

The annual requirements to amortize governmental activities debt issues outstanding at year ending were as follows:

Year ending	General Obligation Bonds		Tax Notes		Certificates of Obligation	
September 30,	Principal	Interest	Principal	Interest	Principal	Interest
2020	$ 1,655,000	$ 1,000,158	$ 170,000	$ 16,150	$ 280,000	$ 345,138
2021	1,720,000	939,439	175,000	12,700	295,000	333,638
2022	1,780,000	889,795	180,000	8,250	305,000	321,638
2023	1,830,000	844,745	185,000	2,775	315,000	309,238
2024	1,890,000	789,414	-	-	330,000	296,338
2025	1,945,000	731,658	-	-	345,000	282,383
2026	2,005,000	671,533	-	-	360,000	268,738
2027	2,075,000	599,451	-	-	375,000	254,038
2028	2,165,000	514,539	-	-	390,000	238,738
2029	1,820,000	434,723	-	-	405,000	222,838
2030	1,895,000	360,300	-	-	420,000	206,338
2031	1,980,000	282,675	-	-	435,000	189,238
2032	2,325,000	196,419	-	-	455,000	173,713
2033	1,905,000	112,331	-	-	465,000	159,913
2034	1,980,000	37,419	-	-	480,000	145,738
2035 - 2042	-	-	-	-	4,425,000	293,150
Total	$ 28,970,000	$ 8,404,596	$ 710,000	$ 39,875	$ 10,080,000	$ 4,396,953

The annual requirements to amortize business-type activities debt issues outstanding at year ending were as follows:

Year ending	General Obligation Bonds		Certificates of Obligation	
September 30,	Principal	Interest	Principal	Interest
2020	$ 125,000	$ 6,350	$ 230,000	$ 411,312
2021	125,000	3,850	240,000	401,913
2022	130,000	1,300	250,000	392,112
2023	-	-	405,000	379,013
2024	-	-	415,000	362,612
2025 - 2042	-	-	10,725,000	3,323,462
Total	$ 380,000	$ 11,500	$ 12,265,000	$ 5,270,424

F. Deferred Charges on Refunding

Deferred charges resulting from the issuance of series 2009, 2015, and 2016 general obligation refunding and improvement bonds have been recorded as deferred outflows of resources and are being amortized to interest expense over the shorter of either the remaining term of the refunded debt or the refunding certificates of obligation. Current year balances for governmental activities totaled $2,338,136 and $41,412 for business-type

activities. Current year amortization expense for governmental activities totaled $182,933 and $3,451 for business-type activities.

G. Interfund Transactions

Transfers between the primary government funds during the 2019 year were as follows:

	Transfers In			
Transfers Out	**General**	**Capital Projects**	**Water & Sewer**	**Total Transfers Out**
General	$ -	$ 1,103,718	$ -	$ 1,103,718
Water and sewer	1,669,309	29,985	-	1,699,294
Nonmajor	-	750,000	30,000	780,000
Total	$ 1,669,309	$ 1,883,703	$ 30,000	$ 3,583,012

Transfers from the water and sewer fund were made for operations support costs borne by the general fund. Transfers from the general fund to the capital projects fund were made for construction projects.

The compositions of interfund balances as of year end were as follows:

	Advances from other funds (Payable fund):
Advances to other funds (Receiving fund):	**PGBT Reinvestment Zone**
Water & Sewer	$ 455,479
Saschse EDC	922,061
	$ 1,377,540

	Due to other funds (Payable fund):
Due from other funds (Receiving fund):	**Capital Projects**
Water & Sewer	$ 605,933
	$ 605,933

The purpose of interfund receivables and payables is to loan cash between funds. All balances are expected to be settled with issuance of new debt or the collection of property taxes.

As of year end, the Water and Sewer fund and Sachse Economic Development fund has advanced the PGBT Reinvestment Zone $455,479 and $922,061, respectively for a major sewer expansion project. The advances will be paid back by future property tax.

H. Assigned Fund Balance

The City assigns fund balance for expenditures designated for specific purposes.

	Capital Projects
Assigned for:	
Vehicle replacement	$ 788,338
Total	$ 788,338

I. Restricted Net Position

The City records restricted net position to indicate that a portion is legally restricted for a specific future use.

The following is a list of restricted net position of the City:

	Governmental Activities	Sachse EDC	Sachse MDD
Restricted for:			
Debt service	$ 831,218	$ -	$ -
Capital improvements	5,949,320	-	-
* Municipal court	347,026	-	-
* Street maintenance	275,552	-	-
Economic development	-	4,898,296	-
Municipal development	-	-	313,992
Total	$ 7,403,116	$ 4,898,296	$ 313,992

* Restricted by enabling legislation

V. OTHER INFORMATION

A. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets, errors and omissions; and natural disasters for which the City

participates along with over 2,800 other entities in the Texas Municipal League's Intergovernmental Risk Pools. The Pool purchases commercial insurance at group rates for participants in the Pool. The City has no additional risk or responsibility to the Pool outside of the payment of insurance premiums. The City has not significantly reduced insurance coverage or had settlements which exceeded coverage amounts for the past three years.

B. Contingent Liabilities

Amounts received or receivable from granting agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amounts of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

GASB 62 defines probability of loss contingencies as the following:

Probable. The future event or events are likely to occur.
Reasonably possible. The chance of the future event or events occurring is more than remote but less than likely.
Remote. The chance of the future event or events occurring is slight.

Liabilities are recorded when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends, including frequency and amount of payouts, and other economic and social factors.

The City is currently involved in a lawsuit with estimated damage claims in excess of $10 million dollars. The City estimates it has a 70% chance of prevailing in this case and that this loss contingency is reasonably possible, but not probable.

C. Construction Commitments

The government has active construction projects as of September 30, 2019. The projects include street construction and improvements and the construction of additional water lines and repairs.

At year end the government's commitments with contractors are as follows:

Government Activities:

Project Description	Contract Amount	Expended to Date	Remaining Commitment
Community Center	$ 5,701,000	$ 4,326,550	$ 1,374,450
Community Center	282,048	243,683	38,365
P-25 Digital Radio Upgrade	950,000	797,342	152,658
	$ 6,933,048	$ 5,367,575	$ 1,565,473

Business-Type Activities:

Project Description	Contract Amount	Expended to Date	Remaining Commitment
Elevated Water Tower	$ 2,697,000	$ 2,502,922	$ 194,078
Southeast Lift Station	2,829,900	1,323,451	1,506,449
Southeast Sewer Project	6,402,596	5,935,648	466,948
	$ 11,929,496	$ 9,762,021	$ 2,167,475

D. Pension Plans

1. Texas Municipal Retirement Systems

Plan Description

The City of Sachse participates as one of 887 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401 (a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at www.tmrs.com.

All eligible employees of the city are required to participate in TMRS.

2. Benefits Provided

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the city, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the city-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payments options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS.

Plan provisions for the City were as follows:

	Plan Year 2019	Plan Year 2018
Employee deposit rate	7.0%	7.0%
Matching ratio (city to employee)	2 to 1	2 to 1
Years required for vesting	5	5
Service retirement eligibility (expressed as age / years of service)	60/5, 0/20	60/5, 0/20
Updated service credit	100% Repeating Transfers	100% Repeating Transfers
Annuity increase (to retirees)	70% of CPI	70% of CPI

Employees covered by benefit terms

At the December 31, 2018 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	81
Inactive employees entitled to but not yet receiving benefits	137
Active employees	149
Total	367

3. Contributions

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the city matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the City. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City of Sachse were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the City of Sachse were 14.51% and 14.79% in calendar years 2018 and 2019, respectively. The City's contributions to TMRS for the year ended September 30, 2019, were $1,459,900, and were equal to the required contributions.

4. Net Pension Liability

The city's Net Pension Liability (NPL) was measured as of December 31, 2018, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

Actuarial assumptions:

The Total Pension Liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.5% per year
Overall payroll growth	3.5 to 10.50% per year including inflation
Investment Rate of Return	6.75%, net of pension plan investment expense, including inflation

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment, with male rates multiplied by 109% and female rates multiplied by 103%. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment are used with males rates multiplied by 109% and female rates multiplied by 103% with a 3-year set-forward for both males and females. In addition, a 3% minimum mortality rate is applied to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements subject to the 3% floor.

The actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four year period from December 31, 2010 to December 31, 2014. They were adopted in 2015 and first used in the December 31, 2015 actuarial valuation. The post-retirement mortality assumption for healthy annuitants and Annuity Purchase Rate (APRs) are based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. In conjunction with these changes first used in the December 31, 2013 valuation, the System adopted the Entry Age Normal actuarial cost method and a one-time change to the amortization policy. Plan assets are managed on a total

return basis with an emphasis on both capital appreciation as well as the production of income in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, GRS focused on the area between (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive). The target allocation and best estimates of real rates of return for each major asset class in fiscal year 2019 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (Arithmetic)
Domestic Equity	17.5%	4.30%
International Equity	17.5%	6.10%
Core Fixed Income	10.0%	1.00%
Non-Core Fixed Income	20.0%	3.39%
Real Return	10.0%	3.78%
Real Estate	10.0%	4.44%
Absolute Return	10.0%	3.56%
Private Equity	5.0%	7.75%
Total	100.0%	

Discount Rate:

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate

The following presents the net pension liability of the City, calculated using the discount rate of 6.75%, as well as what the City's net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate:

1% Decrease 5.75%	Current Single Rate Assumption 6.75%	1% Increase 7.75%
$ 12,975,705	$ 7,163,946	$ 2,525,130

Changes in the Net Pension Liability:

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) – (b)
Balance at 12/31/17	**$** 30,651,944	**$** 26,258,173	**$** 4,393,771
Changes for the year:			
Service Cost	1,745,860	-	1,745,860
Interest	2,093,509	-	2,093,509
Difference between expected and actual experience	198,661	-	198,661
Changes of assumptions	-	-	-
Contributions – employer	-	1,397,265	(1,397,265)
Contributions – employee	-	674,077	(674,077)
Net investment income	-	(787,492)	787,492
Benefit payments, including refunds of emp. contributions	(1,019,862)	(1,019,862)	-
Administrative expense	-	(15,202)	15,202
Other changes	-	(793)	793
Net changes	3,018,168	247,993	2,770,175
Balance at 12/31/18	**$** 33,670,112	**$** 26,506,166	**$** 7,163,946

Pension Plan Fiduciary Net Position:

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TMRS financial report. That report may be obtained on the Internet at www.tmrs.com.

5. Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended September 30, 2019, the City recognized pension expense of $2,299,236.

At September 30, 2018, the City reported deferred outflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources
Differences between expected and actual economic experience	$ 619,153
Changes in actuarial assumptions	1,096
Difference between projected and investment earnings	1,361,311
Contributions subsequent to the measurement date	1,065,734
Total	$ 3,047,294

The City reported $1,065,734 as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability for the year ending September 30, 2020. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended September 30:	
2019	$ 826,116
2020	412,740
2021	230,722
2022	511,982
2023	-
Thereafter	$ -
Total	1,981,560

Other Postemployment Benefits

The City also participates in the cost sharing multiple-employer defined benefit group-term life insurance plan operated by the Texas Municipal Retirement System (TMRS) known as the Supplemental Death Benefits Fund (SDBF). The City elected, by ordinance, to provide group-term life insurance coverage to both current and retired employees. The City may

terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death); retired employees are insured for $7,500; this coverage is an "other postemployment benefit," or OPEB.

The City offers supplemental death to:	Plan Year 2018	Plan Year 2019
Active employees (yes or no)	Yes	Yes
Retirees (yes or no)	Yes	Yes

The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to pre-fund retiree term life insurance during employees' entire careers.

The City's contributions to the TMRS SDBF for the years ended 2019, 2018 and 2017 were $1,984, $1,383 and $1,926, respectively, which equaled the required contributions each year.

Schedule of Contribution Rates
(RETIREE-only portion of the rate)

Plan/ Calendar Year	Annual Required Contribution (Rate)	Actual Contribution Made (Rate)	Percentage of ARC Contributed
2017	0.02%	0.02%	100.0%
2018	0.02%	0.02%	100.0%
2019	0.02%	0.02%	100.0%

Employees covered by benefit terms

At the December 31, 2018 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	53
Inactive employees entitled to but not yet receiving benefits	23
Active employees	149
Total	225

Total OPEB Liability

The City's Postemployment Benefits Other Than Pensions Liability (OPEB) was measured as of December 31, 2018, and the Total OPEB Liability was determined by an actuarial valuation as of that date.

Actuarial assumptions:

The Total OPEB Liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.5% per year
Overall payroll growth	3.5% to 10.5%, including inflation per year
Discount rate	3.71%
Retirees' share of benefit-related costs	$0
Administrative expenses	All administrative expenses are paid through the Pension Trust and accounted for under reporting requirements under GASB Statement No. 68

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment, with male rates multiplied by 109% and female rates multiplied by 103%. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment are used with males rates multiplied by 109% and female rates multiplied by 103% with a 3-year set-forward for both males and females. In addition, a 3% minimum mortality rate is applied to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements subject to the 3% floor.

Discount Rate:

The discount rate used to measure the Total OPEB Liability was 3.71%. The discount rate was based on the Fidelity Index's "20-Year Municipal GO AA Index" rate as of December 31, 2018.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the City, calculated using the discount rate of 3.71%, as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.71%) or 1-percentage-point higher (4.71%) than the current rate:

1% Decrease (2.71%)	Current Single Rate Assumption 3.71%	1% Increase (4.71%)
$ 383,754	$ 311,356	$ 256,451

Changes in the Total OPEB Liability:

	Total OPEB Liability
Balance at 12/31/17	**$** 312,207
Changes for the year:	
Service Cost	23,111
Interest	10,685
Difference between expected and actual experience	(6,206)
Changes of assumptions	(26,515)
Benefit payments	(1,926)
Net changes	(851)
Balance at 12/31/18	**$** 311,356

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended September 30, 2018, the City recognized OPEB expense of $33,072.

At September 30, 2019, the City reported deferred outflows of resources and deferred inflows of resources related to the OPEB liability from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes in actuarial assumption changes	$ -	(3,180)
Difference between expected and actual experience	-	(5,170)
Contributions subsequent to measurement date	1,441	-
Total	**$** 1,441	**$** (8,350)

The City reported $1,441 as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability for the year ending September 30, 2020.

Other amounts reported as deferred outflows of resources related to pensions will be recognized in pension expense as follows:

Year ended December 31:	
2019	$ (724)
2020	(724)
2021	(724)
2022	(772)
2023	(5,406)
Thereafter	-
	$ (8,350)

E. Tax Abatement Disclosures

The City has entered into sales tax abatement agreements with local businesses under Chapter 380 of the Texas Local Government Code. Under the terms of the City's agreements, the City will refund 80% of the City's portion of sales tax paid by the businesses annually. There are currently two existing agreements expiring October 20, 2025 and March 7, 2025. The City abated $36 under these agreements during the current year.

The Sachse EDC entered into a sales tax with a local business under Chapters 501-505 of the Texas Local Government Code. Under the terms of the Sachse EDC's agreement, 80% of its sales tax receipts related to sales generated by the business. The maximum amount of this sales tax agreement is $282,712. This agreement expires January 23, 2023. The Sachse EDC did not abate any taxes related to this agreement in the current year.

F. Restatement

The City has restated beginning net position within governmental activities due to a correction concerning the deferred outflows relating to the City's net pension liability. In addition, the City restated beginning net position within business-type activities due to a correction relating to sewer accruals in the prior year. The restatement of beginning net position is as follows:

	Governmental Activities	Business-Type Activities Water & Sewer
Prior year ending net position, as reported	$ 67,986,340	$ 35,785,485
Correction of sewer accruals	-	(237,919)
Correction to pension deferred outflows	(8,496)	-
Restated beginning net position	$ 67,977,844	$ 35,547,566

G. Subsequent Events

On October 23, 2019, the City of Sachse, Texas issued Tax Note, Series 2019 with a par value of $2,070,000. The tax note has a fixed interest rate of 1.71% and a maturity date of February 15, 2023. The note proceeds are to be used for the construction of streets to The Station development.

There were no other material subsequent events through February 10, 2020, the date the financial statements were issued.

NOTES TO SCHEDULE OF EMPLOYER CONTRIBUTIONS TO PENSION PLAN

Valuation Date:

Notes	Actuarially determined contribution rates are calculated as of December 31 and become effective in January 13 months later.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	27 years
Asset Valuation Method	10 Year smoothed market; 15% soft corridor
Inflation	2.5%
Salary Increases	3.50% to 10.50% including inflation
Investment Rate of Return	6.75%
Retirement Age	Experience-based table of rates that are specific to the City's plan of benefits. Last updated for the 2015 valuation pursuant to an experience study of the period 2010 - 2014
Mortality	RP2000 Combined Mortality Table with Blue Collar Adjustment with male rates multiplied by 109% and female rates multiplied by 103% and projected on a fully generational basis with scale BB

Other Information:

Notes	There were no benefit changes during the year.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF THE DISCRETELY PRESENTED COMPONENT UNITS TO THE STATEMENT OF ACTIVITIES

For the Year Ended September 30, 2019

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances	$	431,808
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		
Compensated absences		537
Change in Net Position of the Discretely Presented Component Units	$	432,345

STATISTICAL SECTION

This part of the City's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Contents **Page**

Financial Trends 114

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity 125

These schedules contain information to help the reader assess the City's most significant local revenue source, property tax.

Debt Capacity 132

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information 137

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

Operating Information 137

These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.
